

What's su-re.co

su-re.co info

Established in 2015, su-re.co (Sustainability and Resilience.co) is a young environmental think-do-be-tank, based in Bali, Indonesia. Our vision is **to ensure that all sustainability and resilience issues are consistent and synergised from policy to local activities and that both are supported by science.** Moreover, our mission is to engage both levels as a “think-tank” and “do-tank” and to learn and show evidence by ourselves as a “be-tank”.

SU-RE.CO NEWS

Vol #2

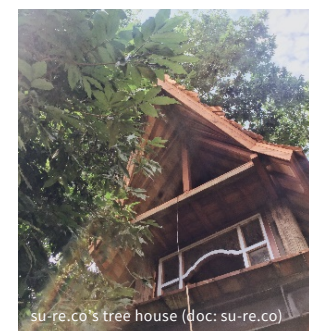

www.su-re.co

su-re.co's Tree House will be launched soon

be-tank

Green building is one of su-re.co's concerns besides coffee and biogas. The pilot project of tree house is built on wood pillars in the middle of su-re.co office. Su-re.co's CEO-Takeshi Takama designed it by himself by using upcycled material. Uniquely, the wood was part of a broken boat then Takeshi found it during climate change and cacao project in Sulawesi. Accordingly, the construc-

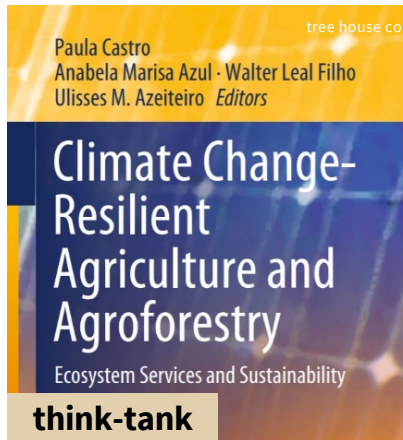

tion of this building does not waste many new resources and has stories behind it. ...to be continued in the next page)

fun fact

Arabica Coffee in Bali

Bali has lost 880 hectares of Arabica coffee farmland during 2013-2017 along with the decreased of coffee production. Arabica coffee production also generally grown down from 4214.89 ton to 3473.43 ton (Statistics of Bali Province, 2018)

Officially published!

A paper with the title: "Comparative Study on Agriculture and Forestry Climate Change Adaptation Projects in Mongolia, the Philippines and Timor Leste" that was written by our team finally has been published in Climate Change-Resilient Agriculture and Agroforestry Journal.

su-re coffee arrived at **Four Seasons**

One of the best resort in Asia, Four Seasons Jimbaran is interested with su-re.coffee project, even it has ordered 60 kgs of our sustainable coffee. In regarding to check the quality of coffee we held a coffee testing session on February 6th. It looked like they enjoy the taste of su-re.coffee so much. *Do you want to taste it too?*

Developing Composting Project in Bali

JICA (Japan International Cooperation Agency) is one of su-re.co's partners on composting project. Last months (01/29) JICA team did meeting with Merah Putih Hijau (MPH)– Organization of

waste management based in Pererenan Village. On January 29th, JICA team and MPH came to su-re.co office to discuss about waste management problem in Bali. We changed ideas and insight to solve that problem.

MPH team also facilitated us to visit their waste management site in Pererenan Village. On that 100m x 60m of land, the waste from whole village is processed.

Moreover, this project is still gaining more best practices and lesson learned of composting project. The team visited Temeshi Landfill in Gianyar, Bali on February 24th. They looked for some information about the composting site condition and checked the possibility to put their composting machine there.

su-re.co's Tree House will be Launched soon

.... The basic material of this house are wood and glass. The use of glass for tree house is regarding to reduce energy

exertion. The glass will make the sun light the room better, thus the use of lamp can be reduced during day time.

The construction has been running for 2 months and will be launched soon for public use!
