

## What's su-re.co

su-re.co info

**E**stablished in 2015, su-re.co (Sustainability and Resilience.co) is a young environmental think-do-be-tank, based in Bali, Indonesia. Our vision is **to ensure that all sustainability and resilience issues are consistent and synergised from policy to local activities and that both are supported by science.** Moreover, our mission is to engage both levels as a “think-tank” and “do-tank” and to learn and show evidence by ourselves as a “be-tank”.

# SU-RE.CO NEWS

Vol #1

[www.su-re.co](http://www.su-re.co)

su-re.co team (doc: @devine.spices)

**su-re.coffee Project :**  
one of the successful  
coffee project fundraisings

do-tank

**B**y January 28<sup>th</sup> 2019, su-re.coffee's crowdfunding reached 106% of the goal (\$15857). Compared with the others similar projects, su-re.coffee project become one of the most successful fundraisings on indiegogo platform. This is an amazing news for the farmers since su-re.coffee project promises to help farmers fight climate change through climate

biogas digester (doc:su-re.co)

smart agriculture. Led by Prof. Dr. Takeshi Takama, su-re.co promises ...to be continued in the next page)

### fun fact

#### Climate Change in Jembrana

**T**he midland part of Jembrana is indicated as one of area which is hugely vulnerable to climate change for rice paddy (Takama et al.,2014). Hence, it may start shifting to the other potential commodity, e.g **coffee**.

be-tank

It is built on the tree in size around 4mx6m

## First Treehouse in Canggu (soon to be)

This year, su-re.co restarted green building project in the office with the form of tree house. It will be made of wood and glass. It is very interesting since tree house is rarely built in Bali. Stay tuned!

## Indonesian Biogas at COP24

Last year (12/6/18), founder of su-re.co—Prof Dr. Takeshi Takama presented biogas and capacity building project for Indonesian

farmers at Conference of the Parties to the United Nations Framework Convention on Climate Change (COP24), Poland.

## Lil Lotus CoFFee is Back in Action

Last Friday (1/18) was the first Friday of school. Nonetheless, Lil Lotus kids already excited to run their coffee business. This business always holds in Montessori School, Canggu. By 8 A.M, the

students have been ready to serve their customer with a cup of delicious coffee in front of the school. They are separated into two groups for serving coffee and selling product e.g organic coffee and chocolate at

the next table.

Most of parents drop their kids in front of the school, so they can easily see Lil Lotus's activity and visit them. Parents and teachers usually talk to

each other while the students are preparing for the coffee. Some parents also asking about the product and the kids can explain it well. In addition, it is an excellent way to encourage the spirit of entrepreneurship for kids even promoting environmental sustainability.

Lil Lotus CoFFee selling (doc: su-re.co)

Lil Lotus team consists of Lyla, Ryoma, Campbell, Jazz & Andreas. Campbell is making coffee for the customer.

headline liaison

## su-re.coffee Project one of the successful coffee project fundraisings

.... to increase farmers income from 3% to 30% of retail price by providing clean energy through biogas digester, fair coffee price

and upgrade farmers capability through Climate Field School (CFS). su-re.co is also planned to install a hundred biogas

digesters in 2019 and even more in the following year.
